About JLT Interactive Private Limited

JLT Interactive is a specialised provider of 'on demand' Insurance and Risk Management software solutions. Large enterprises around the world leverage the company's flagship solution, the **interactive** suite, to improve the efficiency of their insurance operations and to enhance their management of enterprise risk. JLT Interactive's hosted risk management applications support clients in a wide range of industries, from construction and energy to consumer goods and food services.

JLT Interactive is a subsidiary of the Jardine Lloyd Thompson Group plc., (JLT Group) a leading risk management adviser and insurance and reinsurance broker. JLT Group is also a major provider of employee benefits administration services and related consultancy advice. JLT is quoted on the London Stock Exchange and is the largest European-headquartered company providing these services and is one of the largest firms of its type in the world. JLT Group operates out of more than 100 offices in over 30 countries and employs over 5,000 personnel. JLT Group is an associated company of Jardine Matheson Ltd. (SI).

Service model

interactive solutions are provided to clients 'on demand' via the Internet. Highly flexible and scalable, they can be deployed easily and quickly across any organisation with no need for installation on individual PCs. Everything resides on JLT Interactive's hosting servers, protected by comprehensive security measures. This results in convenient worldwide access whenever and from wherever it is required. All system upgrades and bespoke modifications are applied centrally ensuring instant access to the latest tools and information for all users.

At JLT interactive, our goal is to make it easier for today's organisations to deal with the complex maze of risks that they face every day. To that end we've drawn on JLT's international insurance advisory, broking and claims management expertise plus plenty of client feedback and a user-centric approach to create the interactive suite of products.
